ABOUT ME

I'm Aziz Jakbaraliyev — a passionate and detail-oriented Frontend Developer with a strong focus on creating modern, responsive, and user-friendly web applications. At just 19 years old, I've already completed a comprehensive ReactJS Bootcamp at Najot Ta'lim, where I mastered tools like React + Vite, Tailwind CSS, and JavaScript.

I enjoy turning complex problems into simple, beautiful, and intuitive user interfaces. For me, every project is more than just code — it's an opportunity to craft experiences that are visually compelling and functionally solid.

My Mission

I believe that the best websites are those that combine clarity, elegance, and seamless interactivity. That's why I always aim to deliver products that are not only aesthetically pleasing but also optimized for performance and accessibility.

Work Ethic

Clean code, attention to detail, and user experience are at the core of my development process. I follow modern UI/UX trends, love collaborating with teams, and always strive to improve my skills and take on new challenges.

EDUCATION

18 March 2024

Najot Ta'lim IT Center

6 March 2025

Front-end course

I successfully completed the Frontend ReactJS Bootcamp at Najot Ta'lim IT Center, gaining solid knowledge and practical skills in modern web development.

EXPERIENCE

6 March 2025

Inifiniti Co IT Center

Main Teacher

At Inifiniti Co IT Center, I teach frontend development and guide students through practical projects to enhance their skills. I emphasize not only theory but also hands-on experience by involving them in real-world projects.

Additionally, outside of teaching, I actively develop real web applications using modern technologies like React, Tailwind CSS, and JavaScript.

SKILLS

- Html
- JavaScript
- Css , SASS, Tailwind
- TypeScript
- Ant Design, shad-cn
- React.js , Next.js
- Material-UI (MUI)
- Git , Github
